

## Gilligan's Logic Puzzle

Use the given clues to solve the logic puzzle as shown below. Then, use the column numbers to extract the Nth letter of the word in each row to form a new word for every property group. For example, the Color group uses the 1<sup>st</sup> letter of "lavender" (L), 2<sup>nd</sup> of "cornflower" (O), 3<sup>rd</sup> of "rose" (S), and 4<sup>th</sup> of "mint" (T) to spell the word LOST.

Doing this for all three groups spells the phrase LOST BOAT NAME. Anyone familiar with the eponymous TV show will know the answer is: **MINNOW**

Huts		 1st	 2nd	 3rd	 4th
Color	mint	X	X	X	O
	rose	X	X	O	X
	lavender	O	X	X	X
	cornflower	X	O	X	X
Drink	beer	O	X	X	X
	scotch	X	X	X	O
	bourbon	X	O	X	X
	frangelico	X	X	O	X
Food	polenta	X	X	X	O
	nachos	O	X	X	X
	lamb	X	X	O	X
	bananas	X	O	X	X

LOST

BOAT

NAME

MINNOW
